

# Sense8 Technologies Pty Ltd

Passionate IT Services & Technology for SMEs

Ver 20251217.1

Sense8 Technologies Pty Ltd was created by very energetic people who have a passion for IT services and technology. We offer a range of products and services catered for the small and medium enterprise. Take a look and see what we can offer you.

## IT Service Management Solutions

### Break Fix

Pay only for the time used whenever there is a service request impacting your operations.

### Service Agreements

Pay a fixed rate per month for a block of hours. Includes monitoring and fixing issues before they impact normal business operation.

## Desktop & Server Support

Supporting desktops and servers is time-consuming. Let us maintain your Windows and Linux servers so you can concentrate on running your business.

## Migrate to Office 365

---

- ✓ Office 365 products on desktop or web-based suite
- ✓ Collaborate with Microsoft Teams and SharePoint
- ✓ 1TB of storage per user with OneDrive
- ✓ 50GB mailbox storage with anti-malware and anti-spam
- ✓ Get Outlook, Word, Excel, PowerPoint, OneNote and more

# 365

Always Connected, Always Productive

## Remote Workforce Solutions

---

Having a mobile workforce can increase productivity. By using Mobile Device Management with Microsoft Intune, you can monitor and ensure compliance of your workforce.

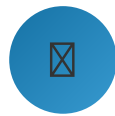

### **Access Control**

Allow or deny user access to company resources with centralized control.

### **Device Management**

Easily deploy software and updates to your business devices without additional infrastructure.

### **Enhanced Security**

Enjoy better control over security and applications across all employee devices.

### **Cloud-Based**

Compatible with all devices. You won't have to maintain anything as it's cloud-based.

## Quick Setup

Save time with Microsoft's Enterprise Mobility and Security Suite – no individual device setup needed.

## Work Anywhere

Take ownership of your resources and allow your workforce to access them from anywhere.

## 24 Hour Infrastructure Monitoring

# 24/7

Monitoring While You Sleep

### Whilst you sleep we monitor and report:

- ✓ 24/7 monitoring of your infrastructure using professional tools and services
- ✓ Detailed reports on infrastructure performance
- ✓ Remote updates and patches for all machines
- ✓ Latest software and firmware updates applied
- ✓ Let you concentrate on your business

# Harness the Power of the Cloud

---

The cloud comes in many forms. Which service best suits your needs? With our help, we can guide you to the best solution for your business.

1

## Cloud Computing

Use Amazon AWS or Microsoft Azure to perform tasks and lower your cost of ownership. Navigate all services and products with our expertise.

2

## Cloud Backups

Easy and cost-effective backup solutions. Make sure your business runs when needed and can recover data when required.

3

## Cloud Benefits

Cost savings, security, flexibility, mobility, increased collaboration, disaster prevention and loss prevention.

# Domain Management Services

---

## Domain Ownership

Let us take care of your domain ownerships and renewals. Don't lose your domain name - your business depends on it.

## WordPress Hosting

We can help you spin up a WordPress site with our online hosting services. Get online quick and use built-in templates to make your business shine.

## AWS S3 Hosting

Use Amazon AWS S3 buckets to host your website. Keep your site up and running with minimal costs - it's easier than you think.

## Solutions for Tradies

---

### Get Your Business Online

- ✓ Get a professional domain name
- ✓ Setup professional email addresses
- ✓ Setup Facebook and Google business pages
- ✓ Organize online invoicing and payments

- ✓ Invoice and accept payments on the spot
- ✓ Stand out with a unique name people will remember

Invoice on the spot and accept payments on the spot using services like Square integrated with online invoicing.

It's cheaper than you think. Let us help you from inception to deployment.

## Got More Questions?
